

Paid Internships - September 2022

Curriculum Developer Intern – AI/ML

Thank you for your interest in our internship opening. As a next step, we are expecting you to complete a short assignment.

ASSIGNMENT BRIEF

We would like you to create a slide deck with a maximum of 10-12 slides that can be used to explain the topic of **'Neural Style Transfer'** to an 18-year-old Indian student from an Agriculture program who is new to AI.

- Feel free to use any open source material - images, videos, etc. you might require to explain the above
- Include relevant examples/ applications / use cases specific to the student profile mentioned (Agriculture)
- Please feel free to list out assumptions and references you have used during the development process
- Keep minimal text on the slides, assume the slides will be used for in-classroom presentations
- For the slides, the focus will be on how well you can step into a learner's shoes and connect the material to their current/future job
- You can upload the final deck as a PPT/PDF file or share a Google Slides link

ABOUT THE PROGRAM / COMPANY

SL2 develops and implements a suite of digital literacy and skilling programs aimed at empowering people to use technology impactfully and responsibly in the AI-fueled world. We work with multiple stakeholders from a global technology giant to India's largest IT consultancy & premier academic institutions. The program aims at bridging the digital divide by:

- Imparting skills to both technical/ non-technical audiences in the field of AI
- Empowering students with not just technical skills but also career growth skills and soft skills to ensure lifelong relevancy in the workforce of the future
- Reaching 30 million people, in partnership with 30 countries

INTERNSHIP PERKS:

- Remote working environment
- Flexible hours, 5-day workweek
- International Team - You'll work with colleagues based in Singapore, United States, Indonesia, and more
- Competitive stipend
- Challenging and steep learning curve (your skills will advance rapidly)
- Vibrant, dynamic & international workplace
- Periodic fun & engaging team activities
- Opportunity to be a value-adding contributor to global projects (our work has reached more >20 countries)
